U. S. DEPARTMENT OF AGRICULTURE

for Every Purpose

Home of Mr. R. J. Coryell, Birmingham, Mich.

The Coryell Nursery

WEST MAPLE AVENUE

BIRMINGHAM, MICHIGAN

Young Plants for Sale in a Year or So.

TO OUR CUSTOMERS AND FRIENDS:

Twenty years ago Mr. R. J. Coryell saw the need in this locality for a nursery devoted principally to growing of hardy plants for the home grounds. He established a little nursery at Birmingham which has, since that time, grown and developed greatly. To this task he brought a wide experience in plants and landscape usage and has solved the problems of thousands of home owners. In 1915 this business was incorporated as "The Coryell Nursery" with its present personnel.

We feel that the growth and success of this business is due largely to the loyalty of our customers, who have not only bought plants from us continuously, but have sent their friends and neighbors to us. We cherish the good will of our customers as our most valued asset and trust that we shall continue to merit the confidence thus imposed in us.

Good Background Planting.

LANDSCAPE BEAUTIFICATION

The field of landscape architecture is very broad and complex. No general set of rules may be established which will cover every landscape problem. The landscape architect endeavors rather to seek out and emphasize the natural beauty of a location by a carefully arranged planting. He desires to harmonize the architectural lines of a house by a graceful series of naturalistic screens. If he is successful in his endeavors, the result will be beautiful almost beyond imagination.

While we do not enter the field of landscape contracting, we are ready to offer landscape advice to our customers at all times. To this end we will prepare landscape sketches, if desired, at any time except in the rush periods of April-May and October-November. We will undertake to plant our customer's stock if he is not in a position to handle it himself.

The question is sometimes raised—does it pay to spend money in landscaping a home? We have concrete examples in mind wherein the owners have made cash profits of from 100% to 1000% on money spent in landscaping and within a period of two years. Aside from any cash consideration a beautiful home grounds will afford more joy and contentment to the owner than an equivalent sum spent on any other improvement we can think of. Certain it is that an investment in beautiful shrubs and trees will not depreciate the value or comfort of a home. It is an investment which will increase in value as the years pass and will yield dividends of pleasure.

Propagating Beds.

PLANTING SEASON. The best time for planting is in the dormant season, usually from April 1st to May 15th and from October 1st to November 15th. Evergreens may best be planted during latter part of April and whole month of May in Spring, and September and October in Fall. Spring is usually the better time for fruit, roses and some perennials. For most trees and shrubs we prefer the Fall as the roots are better established by the opening of the growing season.

CARE OF PLANTS—IN PLANTING. On delivery of plants plant immediately if ground is ready. Otherwise, cover the roots with moist soil until ground is prepared. Spade up the soil thoroughly or if it is of poor quality substitute good garden soil or add manure or decomposed leaves to enrich it. Most trees and shrubs should be trimmed at time of planting, about a third or half of the top being removed in the operation.

CARE OF PLANTS—IN GROWING SEASON. Great care must be given to prevent the soil from drying out. The beds should be hoed from time to time in order to subdue weeds and conserve moisture in the soil. Even then it is necessary sometimes to water in addition. Instead of frequent sprinklings, soak up the ground thoroughly at less frequent intervals and follow up later by hoeing over the ground. Individual trees are more subject to drying out than larger beds and greater care must be given them. It is not advisable to continue watering too late in the summer, as the wood must ripen.

REPLACEMENTS. When satisfied that reasonable care has been given, we will replace plants that have died the first season at half their original cost.

Many Trees in Wide Rows. This Means Ample Roots and Good Tops.

TREES

Our trees are well spaced and frequently transplanted in the nursery. With ordinary care they will grow quickly and soon furnish shade. We carry trees for every purpose from that of the small cottage to the largest estate or subdivision.

Ash, White—*Fraxinus americana*.

Sturdy native tree of long life. Suitable for planting in gravelly soil.

	Each	Per 10
1 ¼ to 1 ½ in.-----	\$1.00	\$ 9.00
1 ½ to 1 ¾ in.-----	1.50	13.50
1 ¾ to 2 in.-----	2.00	

Beech, Purple—*Fagus sylvatica purpurea*.

Slow growing tree of striking purple foliage.

3 to 4 ft.-----	\$2.00
4 to 5 ft.-----	3.00

Butternut—*Juglans cinerea*.

Native tree valuable for nuts as well as shade.

1 ½ to 2 in.-----	\$2.00	\$18.00
-------------------	--------	---------

Catalpa Bungei—Umbrella Tree.

Globe-shaped head on straight stem; used for formal planting.

2 yr. head-----	\$2.00	\$18.00
3 yr. head-----	3.00	

Crab Apple, Bectel's—*Pyrus ioensis*.

Very showy flower effect of double flowers.

2 to 3 ft.-----	\$1.00
3 to 4 ft.-----	1.50

Elm, American—*Ulmus americana*.

Most stately of all trees. Very desirable for street planting, especially in heavier soils.

	Each	Per 10
1 ¼ to 1 ½ in.-----	\$1.25	\$10.00
1 ½ to 1 ¾ in.-----	1.50	14.00
1 ¾ to 2 in.-----	2.20	20.00
2 to 2 ¼ in.-----	2.50	22.50
2 ¼ to 2 ½ in.-----	3.00	27.50
2 ½ to 3 in.-----	4.00	36.00
3 to 3 ½ in.-----	5.50	50.00
3 ½ to 4 in.-----	8.00	

A few specimens up to 8 in. in diameter.

Camperdown—*Ulmus glabra camperdownii*.

Elm of drooping and dwarf habit.

2 yr. head-----\$3.00

Ginkgo biloba—Maidenhair Tree.

Odd conifer with deciduous leaves.

4 to 5 ft.-----\$1.50 \$12.50

Larch, European—*Larix europea*.

Noted for soft, feathery foliage.

4 to 5 ft.-----	\$0.70	\$ 6.00
1 ½ to 2 in.-----	2.00	
2 to 2 ½ in.-----	2.50	
2 ½ to 3 in.-----	3.50	

Linden, American—*Tilia americana*.

A handsome lawn tree. These trees have been recently transplanted.

1 ½ to 2 in.-----	\$2.50	\$22.50
2 to 2 ½ in.-----	3.00	27.00
2 ½ to 3 in.-----	5.00	

Maple, Ash Leaved (Box Elder)—*Acer negundo*.

Most rapid growing maple.

6 to 8 ft.-----	\$1.00	\$ 8.00
1 ½ to 2 in.-----	1.75	15.00
2 to 2 ½ in.-----	2.25	20.00

Cork Barked—*Acer campestre*.

Very ornamental tree with broad low headed top and handsome foliage. Very bushy specimens.

5 to 6 ft.-----	\$2.50	
6 to 8 ft.-----	3.00	

Maple, Norway—Acer platanoides.

Sturdy tree of compact growth, slower than Silver Maple, but more lasting. Prefers a clay loam soil.

	Each	Per 10
1 3⁄4 to 2 in.-----	\$3.50	\$30.00
2 to 2 1⁄2 in.-----	5.00	45.00
2 1⁄2 to 3 in.-----	6.00	50.00
3 to 3 1⁄2 in.-----	9.00	

A few specimens up to 8 inches in diameter.

Silver—Acer dasycarpum.

Desirable fast growing tree for home or road planting. Will grow in any soil. All sizes above 2 1⁄2 in. have been recently transplanted.

1 1⁄4 to 1 1⁄2 in.-----	\$1.25	\$10.00
1 1⁄2 to 1 3⁄4 in.-----	1.50	14.00
1 3⁄4 to 2 in.-----	2.00	17.50
2 to 2 1⁄2 in.-----	2.75	25.00
2 1⁄2 to 3 in.-----	4.00	35.00
3 to 3 1⁄2 in.-----	5.00	
3 1⁄2 to 4 in.-----	8.00	

Sugar—Acer saccharum.

A handsome tree, preferring gravelly soil with well drained subsoil.

1 1⁄2 to 1 3⁄4 in.-----	\$2.00	\$17.50
1 3⁄4 to 2 in.-----	3.00	27.50
2 to 2 1⁄2 in.-----	4.00	37.50

Wier's Cut Leaf—Acer wierri.

Lacy leaves and pendulous branches; very attractive.

1 3⁄4 to 2 in.-----	\$4.00
2 to 2 1⁄2 in.-----	5.00

Mulberry, Tea's Weeping—Morus alba pendula.

Ornamental tree of weeping habit.

1 yr. head-----	\$3.00
-----------------	--------

Oak, Red—Quercus rubra.

Handsome reddish foliage in fall; grows in lighter soils.

1 1⁄2 to 1 3⁄4 in.-----	\$3.00	\$27.00
1 3⁄4 to 2 in.-----	4.00	

Plum, Flowering—Prunus triloba.

Small tree covered in spring with bloom.

3 to 4 ft. specimens-----	\$1.50
---------------------------	--------

Purple—Prunus pissardi.

Purple leaved ornamental tree.

3 to 4 ft.-----	\$1.25
-----------------	--------

Poplar, Lombardy—*Populus nigra italica*.

Slim tall tree of quick growth habit.

	Each	Per 10
10 to 12 ft.-----	\$1.50	\$13.00
12 to 18 ft.-----	3.00	25.00

Sycamore—*Platanus occidentalis*.

Fast growing tree of silvery foliage. Transplanted trees.

2 to 2½ in.-----	\$2.50	\$22.50
2½ to 3 in.-----	3.50	32.00

Thorn, Paul's Scarlet—*Crataegus oxyacantha paulii*.

Brilliant scarlet bloom.

3 to 4 ft. specimens-----	\$2.00
---------------------------	--------

Willow, Golden—*Salix vitellina britzensis*.

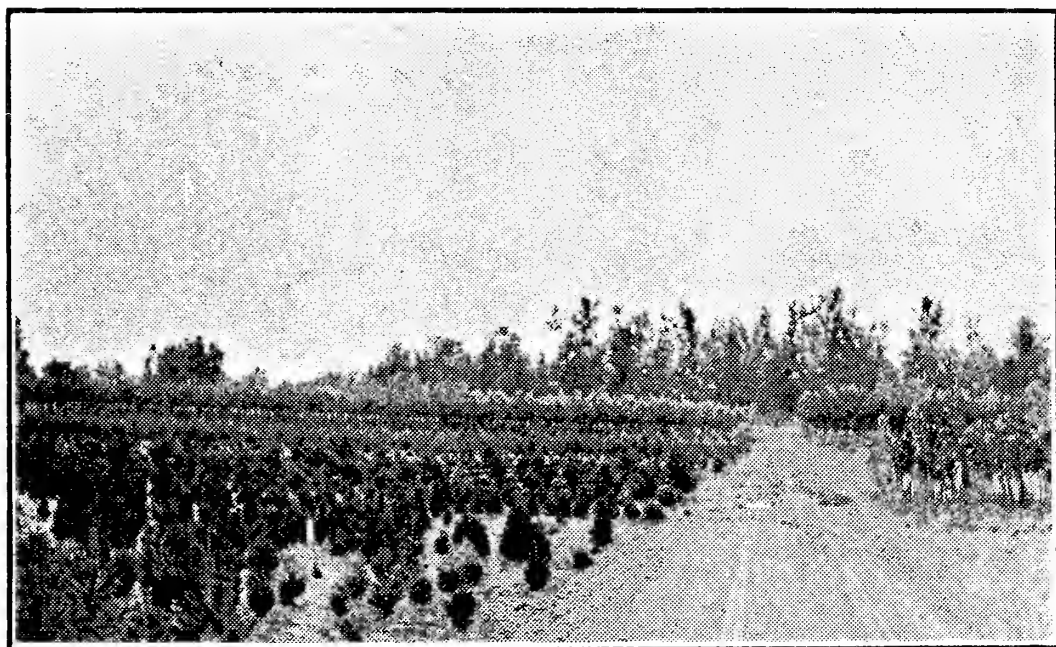

Golden bark, drooping branches.

8 to 10 ft.-----	\$1.25	\$10.00
2 to 2½ in.-----	1.75	16.00
2½ to 3 in.-----	3.00	27.00

Wisconsin—*Salix blanda*.

Weeping Willow of hardy growth.

1½ to 2 in.-----	\$1.75	\$15.00
------------------	--------	---------

There are Eight Blocks of Evergreens of All Sizes.

EVERGREENS

Our evergreens have been frequently transplanted and have developed fine fibrous roots. For specimen planting we recommend the bushier grades.

Arbor Vitae, American—*Thuya occidentalis*.

A moisture loving evergreen of soft foliage, readily adaptable for shearing. Used as specimens, in clump planting or hedges.

	Each	Per 10
18 in. -----	\$1.25	\$10.00
2 ft. -----	2.00	17.50
3 ft. -----	3.00	25.00
4 ft. -----	4.00	35.00
5 ft. -----	5.00	45.00
6 ft. -----	6.00	
7 ft. -----	8.00	

Heavy Specimens

3 ft. -----	\$4.00	\$37.50
4 ft. -----	5.00	45.00
5 ft. -----	7.00	60.00
6 ft. -----	9.00	
7 ft. -----	12.00	

Compact—*Thuya occidentalis compacta*.

A low, globular variety.

	Each	Per 10
10 in. spread -----	\$2.00	
12 in. spread -----	3.00	

Globe—*Thuya occidentalis globosa*.

10 in. spread -----	\$2.00	\$18.00
12 in. spread -----	2.50	22.00
18 in. spread -----	3.00	27.00
2 ft. spread -----	4.00	

Pyramidal—*Thuya occidentalis pyramidalis*.

A slim, spire-like evergreen used largely for planting around houses.

2 ft. -----	\$ 2.50	\$22.50
2½ ft. -----	3.00	27.50
3 ft. -----	3.50	32.00
3½ ft. -----	4.00	
4 ft. -----	5.00	
4½ ft. -----	6.50	
5 ft. -----	8.00	
6 ft. -----	12.00	

Tom Thumb—*Thuya occidentalis ellwangeriana*.

A low evergreen of fine, dark green foliage.

10 in. -----	\$2.00
12 in. -----	2.50

Arbor Vitae, Siberian—*Thuya occidentalis siberica*.

Thick, bushy, dwarf Arbor Vitae.

	Each	Per 10
10 in. spread_____	\$2.00	
12 in. spread_____	3.00	
15 in. spread_____	4.00	

Fir, Silver—*Abies concolor*.

Symmetrical evergreen of silvery green color.

2 ft. _____	\$6.00
3 ft. _____	9.00

Juniper, English—*Juniperus communis*.

Thick growth of silvery tint.

4 ft. _____	\$4.00
5 ft. _____	5.00

Juniper canarti—*Juniperus sabina*.

A low, spreading vasiform type; very effective.

12 in. _____	\$3.00
18 in. _____	4.00

Red Cedar—*Juniperus virginiana*.

Beautiful evergreen of dark green color.

3 ft. _____	\$3.00	\$27.00
4 ft. _____	4.00	
5 ft. heavy_____	6.00	

Silver Cedar—*Juniperus virginiana glauca*.

Noted for silvery tinge and long, wavy branches.

4 ft. _____	\$6.00
5 ft. _____	8.00

Swedish—*Juniperus communis suecia*.

Upright growth; not as dense as Irish Juniper.

2 ft. _____	\$3.00
2½ ft. _____	3.50
3 ft. _____	4.00

Trailing—*Juniperus sabina horizontalis*.

Trailing or ground Juniper of silvery foliage.

1½ to 2 ft. spread_____	\$3.00
2 to 3 ft. spread_____	4.00

Pine, Austrian—*Pinus nigra austriaca*.

Upright grower with stiff branches and long needles.

4 ft. _____	\$4.00
5 ft. _____	5.00
6 ft. _____	6.00

Mugho—*Pinus montana mughus*.

Dense, low growing variety.

12 in. _____	\$3.00
15 in. _____	4.00
18 in. _____	5.00

Pine, Red—*Pinus resinosa*.

Long needles, not as stiff as Austrian Pine.

	Each	Per 10
2 ft. -----	\$2.00	\$17.50
3 ft. -----	3.00	25.00
4 ft. -----	4.00	35.00

Scotch—*Pinus sylvestris*.

Fast growing Pine; short, flexible needles.

2 ft. -----	\$1.50	\$12.00
3 ft. -----	2.00	18.00
4 ft. -----	3.00	27.50

White—*Pinus strobus*.

Beautiful tall growing evergreen with soft needles of silvery bluish-green color.

2 ft. -----	\$2.00	\$18.00
3 ft. -----	3.00	27.00

Retinospora plumosa.

Very graceful evergreen of plume-like branches.

18 in. -----	\$2.00	
2 ft. -----	3.00	
3 ft. -----	4.00	

Spruce, Colorado—*Picea pungens*.

Not as silvery as the following.

18 in. -----	\$4.00	
2 ft. -----	6.00	

Colorado Blue—*Picea pungens glauca*.

Selected silver specimens.

15 in. -----	\$ 6.00	
18 in. -----	7.50	
2 ft. -----	10.00	
3½ ft. -----	15.00	

Norway—*Picea excelsa*.

Rapid growing evergreen of strong green color; very hardy; suitable for group planting. Can quote in hundred lots in most sizes.

18 in. -----	\$1.00	\$ 8.00
2 ft. -----	1.50	
3 ft. -----	2.50	
4 ft. -----	3.50	
5 ft. -----	4.00	36.00
6 ft. -----	5.00	45.00
7 ft. -----	6.00	55.00

Heavy Specimens

4 ft. -----	\$4.00	
5 ft. -----	5.00	45.00
6 ft. -----	6.00	55.00

A few specimens up to 12 ft. in height.

Spruce, Douglas—*Pseudotsuga douglasii*.

Rapid growing variety; needles glaucous green.

	Each	Per 10
18 in. -----	\$2.00	\$17.50
2 ft. -----	3.00	27.50
3 ft. -----	4.00	
4 ft. -----	6.00	
5 ft. -----	8.00	

White—*Picea canadensis*.

Symmetrical Spruce of silver gray color; used largely for tubs.

1½ ft. -----	\$1.50
2 ft. -----	2.00
2½ ft. -----	3.00
3 ft. -----	4.00
4 ft. -----	5.00
5 ft. -----	6.00
6 ft. -----	8.00

Thousands of Well Grown Shrubs.

SHRUBS

These Shrubs are grown with ample roots and stocky tops. They are not to be compared with slim stock often sold. The following kinds are selected as the most hardy and most generally suitable for Michigan climate. The height given after the name is that attained after several years' growth.

Almond, Double Flowering—*Amygdalis communis*. Eventual height, 4 to 5 ft.

Button-like flowers in red, pink or white appear early in spring.

	Each	Per 10
2 to 3 ft. -----	\$.80	\$7.50

Althea—White, pink or red. 6 to 8 ft.

Tall, erect shrub with large flowers appearing late in summer. Needs full sun exposure.

3 to 4 ft. -----	\$.70	\$6.00
Tree 3 to 4 ft. -----	1.00	

Barberry, Dwarf—*Berberis thunbergii*. 3 ft.

Best dwarf shrub for group or hedge.

12 to 15 in. -----	\$.20	\$1.75
15 to 18 in. -----	.25	2.25
18 to 24 in. -----	.30	2.75
2 to 2½ ft. -----	.40	3.50

Box. Very dwarf form of above.

4 to 6 in. -----	\$.25	\$2.25
------------------	--------	--------

Butterfly Bush—*Buddleia magnifica*. 4 ft.

Summer lilac; in bloom all summer.

2 to 3 ft. -----	\$.55	\$5.00
------------------	--------	--------

Button Bush—*Cephalanthus occidentalis*. 6 to 8 ft.

Tall growing shrub with fragrant button-like flowers appearing in July.

3 ft. -----	\$.55	\$5.00
-------------	--------	--------

Deutzia gracilis.

Low dense shrub covered with white bloom in May.

8 to 12 in. -----	\$.55	\$5.00
-------------------	--------	--------

Pride of Rochester. 4 to 5 ft.

Taller variety, with large, double white flowers.

2½ to 3 ft. -----	\$.45	\$4.00
-------------------	--------	--------

Dogwood, Red Branched—*Cornus alba siberica*. 6 to 8 ft.

Branches turn bright red in fall and winter.

3 to 4 ft. -----	\$.45	\$4.00
4 to 5 ft. -----	.65	6.00
5 to 6 ft. -----	.85	8.00

Flowering—*Cornus florida*.

Tall shrub or tree; beautiful mass of bloom in spring.

2 to 3 ft. balled specimen	\$1.00	
----------------------------	--------	--

Elder, Cut-leaf—*Sambucus nigra laciniata*. 5 to 7 ft.

A vigorous growing variety with cut leaves.

	Each	Per 10
3 to 4 ft. -----	\$.55	\$5.00
4 to 5 ft. -----	.65	6.00
Golden 3 ft. -----	.55	5.00
4 ft. -----	.65	6.00

Exochordia grandiflora. Pearl Bush. 6 to 8 ft.

An interesting and rare bush with white flowers in May.

2 to 3 ft. -----	\$.65
------------------	--------

Goldenbell—*Forsythia*. 6 to 8 ft.

All varieties have yellow flowers appearing before the foliage in early spring.

***Forsythia fortunei*.**

Erect growing, hardy, the best.

***Suspensa*. Trailing. Used to cover banks.**

2 to 3 ft. -----	\$.45	\$4.00
3 to 4 ft. -----	.55	5.00

Hazel, Witch. *Hamamelis virginiana*. 6 to 8 ft.

A hardy native. Thread-like bloom in November.

2 to 3 ft. -----	\$.65
------------------	--------

Honeysuckle, Bush. *Lonicera*. 8 to 10 ft.

Strong growing plants even under adverse situations.

Lonicera bella albida; white flowers, red fruits.

Lonicera Morrowii. More spreading than the one above.

Lonicera grandiflora rosea. Pink flowers, yellow fruit.

2 to 3 ft. -----	\$.45	\$4.00
3 to 4 ft. -----	.55	5.00
4 to 5 ft. -----	.65	6.00
5 to 6 ft. -----	.75	7.00

***Hydrangea arborescens grandiflora*. Hills of Snow. 4 ft.**

Large flat heads of white appearing in July. Trim back heavily every spring.

2 to 2½ ft. -----	\$.65	\$6.00
2½ to 3 ft. -----	.80	7.50
3 to 3½ ft. -----	1.00	9.00

***Paniculata grandiflora*. Garden Hydrangea. 4 ft.**

Large ball shaped bloom appearing in August, white, turning flesh color during September and October. All hydrangeas need fertile soil that must be kept damp during the summer months.

18 to 24 in. -----	\$.45	\$4.00
2 to 2½ ft. -----	.55	5.00
2½ to 3 ft. -----	.65	6.00

Hydrangea Tree. 5 to 6 ft.

Tree form of the above.

	Each	Per 10
2 to 3 ft. -----	\$.80	\$ 7.50
3 to 4 ft. -----	1.10	10.00

Lilac, Common purple. 8 to 10 ft.

3 to 4 ft. -----	\$.55	\$ 5.00
4 to 5 ft. -----	.65	6.00
5 to 6 ft. -----	.85	8.00
6 to 8 ft. -----	1.10	10.00

Lilac. Named varieties. 8 ft.

These grafted kinds flower much more abundantly than the common kinds. We can furnish different kinds in all shades from white to deep red, in single and double bloom.

3 to 4 ft. -----	\$1.60	\$15.00
------------------	--------	---------

Persian and Rothamagensis.

More slender stems than the above and more profuse in bloom.

2½ to 3 ft. -----	\$1.25	\$12.00
-------------------	--------	---------

Privet, Amoor River. Ligustrum amurense. 6 to 8 ft.

Hardy; one of the best for strong growing hedges.

	Per 10	Per 100
18 to 24 in. -----	\$1.80	\$15.00
2 to 3 ft. -----	2.50	20.00
3 to 4 ft. -----	3.00	25.00

California—Ligustrum ovalifolium. 5 to 7 ft.

	Per 10	Per 100
12 to 18 in. -----	\$.80	\$ 7.50
18 to 24 in. -----	1.00	8.00
24 to 30 in. -----	1.20	10.00
30 to 36 in. -----	1.50	12.00

Regal's. Ligustrum regelianum. 4 ft.

Its horizontal growth of the branches with its white flowers in late May and loads of black fruits in fall makes it one of the best semi-dwarf shrubs for group planting.

	Each	Per 10
18 to 24 in. -----	\$.40	\$3.50
24 to 30 in. -----	.50	4.50
30 to 36 in. -----	.60	5.50

Quince, Japanese. Pyrus japonica. 5 ft.

24 to 30 in. -----	\$.65	\$6.00
--------------------	--------	--------

Rhamnus catharticus—Buckthorn. 8 ft.

Tall growing, thorny shrub. Black branches and black berries.

	Each	Per 10
3 to 4 ft. -----	\$.45	\$4.00
4 to 5 ft. -----	.65	6.00
5 to 6 ft. -----	.85	7.50

Rhodotypos kerrioides—White Kerria. 5 ft.

White flowers in May; showy berry effect in July; leaves like Kerria.

2 to 3 ft. -----	\$.55	\$5.00
3 to 4 ft. -----	.65	6.00

Rosa rugosa—Jap Rose. 4 ft.

Single rose colored flower; red hips appearing late in summer.

2 to 2½ ft. -----	\$.45	\$4.00
2½ to 3 ft. -----	.65	6.00

Russian Olive—Eleagnus angustifolia. 8 to 10 ft.

Whitish appearance of leaves; used for tall hedge or background.

3 to 4 ft. -----	\$.45	\$4.00
4 to 5 ft. -----	.65	6.00

Snowberry—Symphoricarpos racemosus. 4 to 5 ft.

Noted for profusion of large white berries.

2 to 3 ft. -----	\$.45	\$4.00
3 to 4 ft. -----	.55	5.00

Indian Currant—Symphoricarpos vulgaris. 4 to 5 ft.

Similar to above, but with red berries.

2 to 3 ft. -----	\$.45	\$4.00
3 to 4 ft. -----	.55	5.00

Spirea Anthony Waterer. 2 to 3 ft.

Dwarf shrub with dark red panicles of bloom.

8 to 12 in. -----	\$.55	\$5.00
12 to 15 in. -----	.65	6.00

billardi. 5 to 6 ft.

Slim, tall variety with panicles of flowers appearing in summer.

2 to 3 ft. -----	\$.45	\$4.00
3 to 4 ft. -----	.65	6.00

Spiraea—callosa alba. 2 to 3 ft.

Dwarf variety; mass of white bloom in summer.

	Each	Per 10
8 to 12 in. -----	\$.55	\$5.00
12 to 15 in. -----	.65	6.00

Douglas. 4 ft.

White bloom in June and July.

3 ft. -----	\$.55	\$5.00
-------------	--------	--------

froebelli. 3 ft.

Stronger grower than Spiraea Anthony Waterer; flower effect same.

2 to 2½ ft. -----	\$.55	\$5.00
-------------------	--------	--------

Golden—Spiraea aurea. 8 ft.

Leaves are golden on appearance in spring.
